Frontend developer with strong knowledge in building **web applications**. Experienced with developing projects in **teams** and providing code solutions based on efficiency and meticulousness. As a **Computer Engineering** student, I stand out for my proactive and analytic attitude towards providing scalable solutions.

Experience

Red Mascotera – Solidarity Project

Remote • november 2023 – may 2024

- Web application for the visualization of lost pets or those available for adoption using profiles and maps.
- Design and development of the user interface with **TailwindCSS** and **NextJS** using **Typescript** and **OpenStreetMap**.
- I was part of the production deployment cycle using **Docker**, significantly improving the deployment times of the website.

Instituto Web – Experiencia IT

Remote • august 2023 – october 2023

- Web application for a fictitious clinical analysis laboratory system using **React**, implementing a home page and a section for managing appointments and patients.
- In charge of building forms using **react-hook-form** and connecting the **frontend** with the **backend** through a **REST API** developed by another team.

Education

Universidad de Buenos Aires – Computer Engineering

Hybrid • march 2025 – present

Highlighted project of Introduction to Software Development (TB022)

- Web application developed with **SvelteKit** and **Python** using the **FastAPI** framework.
- Manipulation of large volumes of data from CSV files to store them in an **SQLite** database.
- Implementation of **Unit Test** and **Mock Test** for the backend.
- Use of shell scripting for file processing.

Escuela de Innovación ITBA - Full Stack Developer Certificate

Remote • august 2023 – november 2023

- Development of a home banking platform using **React** and **NextJS**.
- Layout and design with **CSS** and **TailwindCSS**.
- Development of **REST API** using **Django**.
- Implementation and connection of **SQLite** database.
- Deployment of the website using **Vercel**.

Liceo Cultural Británico - First Certificate English B2

In-person • march 2017 – december 2024
